Artwork - set at 1/4 size

width = 150/200/212.5/250/300/375mm
(set as appropriate*)
height = 510mm (visible graphic area 500mm
remaining 10mm is inside cassette)

- **PLEASE SET ARTWORK AT QUARTER SIZE.****
- **IMAGES 300dpi.**
- **NO BLEED, NO CROP MARKS.**

File Format

Preferred formats hi-res pdf, jpeg, tiff or eps.
However we carry versions of all major
design/page layout software (mac or pc), please
call for help or advice on versions.

- **Make sure all images are RGB or CMYK
do not mix the two.**
- **DO NOT BLEED AND DO NOT USE CROP MARKS.**
- **Please flatten and embed or convert to paths
ALL FONTS when supplying files, unless
supplying fonts by previous arrangement.**

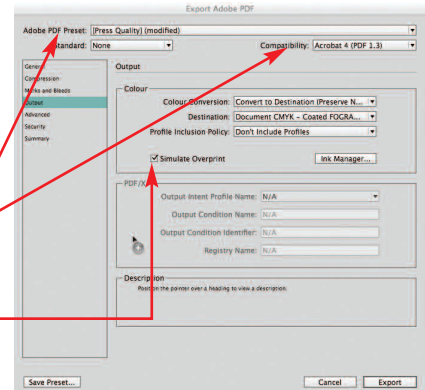

*Actual size of banner graphic is 600,800,850,1000,1200 or 1500mm wide
(depending on which size banner you require) x 2040mm high.

**Artwork sizes are 1/4 (quarter) size of actual dimensions to enable smaller
file sizes and easier sending.

NB: Adobe InDesign users

When saving pdfs from InDesign...
following a few easy steps will
prevent common print problems
caused by using effects and
transparency tools.

- File>Export as Adobe PDF (print)
- Adobe PDF preset select
Press Quality
- Compatibility **Acrobat 4 (PDF 1.3)**
- In Output tab locate the
Simulate Overprint check box...
please check it
- Make all other adjustments relevant
to your file and...
- Export - we're good to go

Please Note: 2mm (at 1/4 size) at the top
AND 10mm (at 1/4 size) at the bottom will
not be visible - however please ensure
your image bleeds into this area.
